DETAILED ACTION

1. This office action is in response to the amendment filed on 5/22/2006.

Reason for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claims 1-3, 5-9 which are now renumbered as 1-8 are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a control circuit in a spinstand which translates the angular position from an encoder to a radial position of a head with respect to a medium.

Claims 11, 17, 19, 25-28 which are now renumbered as 9-15 are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a method of bypassing adjustment of control current to a motor coupled to the actuator arm in accordance with the transduced servo data if the servo data are not consistent with the detected angular position of the actuator arm.

Claims 29-32 which are now renumbered as 16-19 are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a Spinstand comprising a Halbach array voice coil motor configured to move a rotary actuator arm with respect to a medium.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
